Stonyledge Farm has some beef steers that are ready to go to market and we'll have beef shares available! Be secure in knowing where your food comes from and protected from rising food prices, support local farmers, and serve delicious & tender beef to your family by buying a share today. Whether grilling or oven-roasting, our beef will be the focal point of special family dinners. Our beef is raised year-round on pasture and fed our own home-grown hay, without any growth hormones, antibiotics, animal by-products, etc. The sunshine, exercise, good diet and happy, stress-free life create flavorful and tender beef. Our shares will be made available in two sizes: a 35 lb. half-share and a "family-sized" 75 lb. full share. Please see the next page for an idea of what each of the shares will contain.

Our beef will be processed at a USDA inspected facility in RI – just a 45 minute ride away. This facility is the same one used by "certified humane" growers and is respectful in its treatment of our animals. The carcasses will be cut up and cryo-vac sealed at Westerly Packing, a USDA inspected facility in Westerly. The meat market we use to create our hotdogs and kielbasa is USDA inspected, nitrate- and gluten-free, all natural and uses spices that I'm sure you all have on your spice rack. They do a wonderful job for us!

Please be mindful that the weights of the individual packages will vary and the pounds for each cut of beef are an approximation. We will try our hardest to create shares as close to the estimates as possible.
